

<b>1</b>	<b>1,000</b>
<b>milligram</b>	<b>micrograms</b>
<b>microgram</b>	<b>nanograms</b>
<b>nanogram</b>	<b>picograms</b>
<b>picogram</b>	<b>femtograms</b>

**These are measurements of weight.**

It is important not to equate weight with potency or assign relevance (or lack thereof) to the detection of a substance based solely on the concentration (weight per unit volume) reported.
